

PROFILING K - 6 PRACTICAL PROGRAMS

Consistent with the Australian LOTE Curriculum Statement, the lessons in this program have been profiled to assist teachers in identifying and achieving learner outcomes.

The three recognised strands across the eight levels of student learning are:

- Oral Interaction
- Reading and Responding
- Writing

For the purpose of this program, student learning outcomes begin at Level 1, move towards completing Level 2 and beginning Level 3, as a minimum level of attainment.

Based on my personal experience using the profiles, I have linked each lesson with student outcome levels as indicated on the following pages. This is to be used as a guide only as teachers will find that levels vary depending on the teacher's desired outcome and on the children's backgrounds and abilities.

Kind regards

Tommasina Rodrick

The following table summarises LOTE Outcomes from ...
