

ECCO L'ITALIANO!

Italian Blackline Masters

By Tommasina Rodrick

ABOUT THE ACTIVITIES

ECCO L'ITALIANO! Blackline Masters have been designed to support **MI PIACE L'ITALIANO!** Kindergarten - Year 6 Italian program. Due to the user friendly nature of these Blackline Masters, they can also be implemented on their own or with your school's existing LOTE program.

There are **25** Blackline Masters per year level. For Kindergarten to Year 6 that is a total of **175** Blackline Master activities.

The activities comprise a variety of themes, and aim to consolidate and extend the children's knowledge of Italian.

Children with little or no background in Italian will find these Blackline Masters easy to understand and follow.

These activities are designed to be stimulating, challenging and fun. Class discussion is encouraged, as is peer support and group work.

The language teacher is encouraged to expand on the concepts being covered in each Blackline Master to consolidate the desired learning outcomes.

These Blackline Masters can be used as revision or extension activities.

Integrate and develop cultural activities where possible, when implementing these Blackline Masters. Cultural development can be achieved at any stage or year level, when learning a language.

Encourage children to read all their work aloud in Italian and to share it with others. Praise and give tangible rewards like stickers and stamps whenever possible.

As progress is important, be guided by your learner's level and rearrange the order of the Blackline Masters to provide optimum learning. For example, you may choose a Year 3 Blackline Master activity for your Year 5 student because of his/her ability.

I wish you continued success in LOTE and hope you enjoy using **ECCO L'ITALIANO!**

<ul style="list-style-type: none"> ➤ The following two charts are an overview of all the Blackline Masters from Kindergarten to Year 6. ➤ The activities have a progression of vocabulary from one year level to the next. ➤ The same theme was not always used for each year level. ➤ Teachers are encouraged to lead up to, and then follow up each Blackline Master activity. This will allow the children to learn the language being presented in context. ➤ As children learn best with peers, encourage them to work in pairs or small groups. This should help develop confidence and language acquisition.
